Only Choice Bulbs Grown and Offered by

VITO CONENNA BULB FARM

State and Federal Inspected. Licensed.

All bulbs listed are grown at our farm. Special care given, and raised on well drained black sandy loam. We also grow shrubs and perennial plants.

Terms—Cash with order.

Prices—Six at dozen rate, fifty at hundred rate. Special prices on 1,000 lots. Orders of \$2.00 or more prepaid, under \$2.00 add 15 per cent.

We sell only first class bulbs and true to name. If any are not, we will replace them, but we are not responsible in any way for bulbs, roots or plants we send out, inasmuch as the growing is beyond our control.

SPECIAL NOTICE

Any order \$25.00 to \$50.00 we will allow 5% discount; \$55.00 up, 10% discount. Also we will allow 5% on all orders of \$5.00 and up if you pay delivery charges on Iris, Tulips, Crocus; 10% discount on Daffodils, Hyacinths, Lilies, Narcissus and Perennial Plants.

Do not forget our bulbs are of superior quality at lowest prices if you compare quality. If you compare the price only you may be disappointed at blooming time. We appreciate your business and hope you are pleased when you receive our bulbs and at blooming time in your garden.

BULBOUS IRIS or NOVELTY IRIS

ONE OF OUR SPECIALTIES

The cut flower irises or the orchid are very ornamental and hardy everywhere.

Culture same as for tulips. For best effect they should be planted in groups of 25 or more. They grow 25 to 26 inches high and come in bloom following late tulips and continue to bloom until middle of July. No word can describe the beauty of these novelty irises. You should try and see it to convince yourself.

Our prices has been greatly reduced and we offer the best collection on the Pacific Coast. Choicest select varieties imported by us direct from Holland. Following classes: Dutch, Spanish, English. Stock limited, order early.

DUTCH IRIS—Early Bloomer
YELLOW QUEEN—Huge blossoms of golden yellow throughout. Very large bulbs. Doz. \$1.00; 100, \$7.00.

CULTURAL DIRECTIONS

PLANTING TIME

All bulbs should be planted in the autumn
 for spring flowering. Bulbs may be planted
 from September until the ground freezes;
 the earlier the better. Bulbs should be plant-

ed so that the roots can get started before cold weather sets in.

HOW TO PLANT

In light and sandy soil bulbs should be planted a little deeper and a good supply of well-rotted manure worked into the soil before the bulbs are planted will aid very materially in producing beautiful blooms.

Anemone	2 inches deep, 6 inches apart
Crocus	2 inches deep, 4 inches apart
Narcissus	4 inches deep, 6 inches apart
Daffodils	..	4½ inches deep, 6 inches apart
Dutch Iris	.	4½ inches deep, 4 inches apart
Spanish Iris		4½ inches deep, 4 inches apart
English Iris		4½ inches deep, 6 inches apart
Tulips	4½ inches deep, 5 inches apart
Lilies	6 inches deep, 3 inches apart
Hyacinth	5 inches deep, 7 inches apart

FOR INDOOR CULTURE

For indoor planting bulbs should be potted as soon as possible and then left out in the open, covered with a few inches of soil until freezing weather, and then brought into the cellar or other sheltered place where the temperature is not over 50 degrees, but, of course, not freezing. Keep in the dark until the roots are well established and then they may be brought to the light and will flower from time to time until Easter.
